***Allowable Subject Matter***

1. Applicant's amendment filed 4/29/05 is persuasive; therefore claims 4-9 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest, singularly or an obvious combination of a lower back stretching apparatus having a pivotable rearward portion comprising a generally flat rectangular horizontal paddle element having an upper and lower surface, front and rear end and two opposite sides interconnecting the end where tow leg holders are mounted on the rearward portion element upper surface near the rear end and a crank mechanism interconnecting the forward portion and the rearward portion adapted to pivot the rearward portion from a zero degree horizontal position through a forty-five degree downward and rearward tilted position, the crank further comprising a support cross-bar attached to the two rear support legs, an elongated crank lever pivotally attached to the support cross-bar where the lever comprises a forward portion terminating in a Y-shaped element having two element ends which terminate in a hand grip and rearward portion terminating in a U-shaped element having apertures and being adapted to fit about the rearward portion support bar; further including a center section rotatably attached to the support cross-bar and a damper piston interconnecting the forward portion rear end with the crank mechanism rearward portion as recited in claim 4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
